OVERVIEW

The Directors are pleased to report on the unaudited consolidated results of NICO Holdings PLC, its subsidiaries, joint venture, and associate company for the half year ended 30 June 2024.

NATURE OF ACTIVITIES

The core business of the NICO Group is General Insurance, Life Insurance, Pension Services, Banking, Corporate Finance Advisory and Asset Management. The NICO Group through its portfolio investments also owns substantial investments in property, listed and unlisted equity investments across various industries in the Malawi economy. The Group carries out its business through subsidiaries in Malawi and Zambia, a joint venture company in Malawi and an associate company in Mozambique.

GROUP RESULTS

Gross revenue for the half year ended 30 June 2024 increased by 62% to MK202.6 billion compared to MK125.2 billion for the same period in 2023. Profit after tax before other comprehensive income increased by 73% to MK49.3 billion compared to MK28.4 billion for the same period in 2023. The growth in the Group's profitability was mainly driven by good performance of the banking business. Profit after tax and other comprehensive income of MK49.5 billion was 65% above the MK30.0 billion recorded for same period in 2023.

The results for six months ended 30 June 2023 have been restated to align with requirements of IFRS 17 Insurance contracts. This has impacted the Group, Life and General Insurance results.

SEGMENTAL PERFORMANCE

Banking

NBS Bank Plc delivered an impressive performance in the six months to 30 June 2024, driven by growth of loan book and money market instruments, a rise in interest rates, acquisition of new clients which contributed to a higher volume of transactions on digital platforms, and an increase in the volume and value of forex transactions and guarantees. The Bank's consolidated profit after tax grew by 168.5% to MK32.65 billion (June 2023: MK12.16 billion).

The Bank grew its balance sheet size by 84% in 2024 to MK972.9 billion (June 2023: MK527.6 billion). The Bank registered a 55% growth in customer deposits to MK648.6 billion (June 2023: MK417.5 billion). Loans and advances grew by 40% to close at MK185.2 billion (June 2023: MK132.2 billion).

Net interest income grew by 109% to MK67.9 billion (June 2023: MK32.5 billion). Non-interest revenue grew by 122% to MK22.6 billion (June 2023: MK10.2 billion). Impairment provisions rose to MK3.9 billion, up by 86% from MK2.1 billion in the same period last year due to the growth of the loan book which triggered additional provisions under International Financial Reporting Standards, and the downgrade of exposures within the SME segment.

Life Insurance

NICO Life Insurance Company Limited registered total insurance revenue of MK10.8 billion in the six months to 30 June 2024, which represented a decrease of 16% when compared to insurance revenue of MK12.9 billion registered in the same period last year. The business registered MK11.0 billion in profit after tax, a 22% decrease compared from MK14.1 billion profit for a similar period in 2023. The reduction in profitability was mainly due to impact of lower investment returns from listed equities.

The associate company in Mozambique registered satisfactory revenue and profit performance.

General Insurance

The general insurance business in Malawi registered insurance revenue growth of 57% to MK19.6 billion (June 2023: MK12.5 billion). The revenue growth was due to both organic growth and new business. The business registered profit after tax of MK1.2 billion, a 14% decrease from MK1.4 billion profit after tax for the same period in 2023. The reduction in profit after tax was due to increase in technical reserves.

The business in Zambia registered insurance revenue of MK16.8 billion, a 53% increase from the MK10.96 billion registered in the same period last year. The growth in premiums was due to both organic growth and new business. The business registered a profit after tax of MK631.8 million compared to prior year loss after tax of MK1.7 billion for the same period in 2023. The profitability in the first half of the year was attributable to lower net claims, favourable reinsurance results and higher investment income.

Asset Management

NICO Asset Managers Limited ("NAML") is one of the largest portfolio management firms in Malawi. The Company specialises in portfolio management and investment advisory services and has over the years delivered above market returns and financial solutions to a wide range of clients.

NAML registered growth in assets under management by 20% to MK1.380 trillion (June 2023: MK1.147 trillion). Total income at MK6.0 billion was 46% above income of MK4.1 billion registered during same period last year largely due to growth in Assets Under Management (AUM). Profit after tax for the period of MK2.2 billion represented an increase of 23% compared to MK1.8 billion registered in same period of the prior year.

Pension Administration

NICO Pension Services Limited is licenced to offer pension administration services and act as a corporate trustee for pension schemes.

The company registered revenue of MK3.0 billion in the six months to 30 June 2024 which represented 25% growth over 2023 revenue of MK2.4 billion. The growth in revenue was driven by new business and pension contribution arrears received from various schemes. The business registered profit after tax of MK504.1 million in the six months period which was 15% higher than MK439.5 million recorded in the same period last year.

DIVIDEND

After taking consideration of future investments and capital requirements, the Board of directors resolved to pay a first interim dividend of MK3.00 per share (MK3.129 billion), (2023: MK2.00 per share, MK2.086 billion), a 50% increase. The first interim dividend will be paid on 11 October 2024 to the shareholders appearing on the Register of Members as at close of business on 27 September 2024. The Register of Members will be closed on 28 September 2024 to 30 September 2024 and no transfers will be registered during that time.

OUTLOOK

The Reserve Bank of Malawi forecast that the Malawi economy will grow by 2.3% in 2024 higher than 1.9% in 2023. Low foreign exchange reserves, high inflation rate and interest rates which characterized the first half of 2024 are expected to continue in the second half. From these highlighted challenges, it is likely that the business operating environment will remain challenging. The Group continues to adapt its strategy and operations to deliver superior shareholder value despite the challenging economic environment.
