## Review of Operations

The annualized rate of growth in group assets for the period was in excess of 20%, mainly attributable to deposit mobilization with a 25% annualized growth in liabilities to the public.

The prudential requirement to maintain Kwacha liquidity reserves against foreign exchange deposits negatively impacted interest margins in Malawi but the overall group net interest margin increased from 12% to 13% due to an increased proportion of lower cost current savings and accounts in our deposit base and a slight increase in our credit deposit ratio from 62% to 65%.

Gains recorded on foreign exchange transactions were considerably down on prior years due to lower spreads available in the market. This is the main reason for a 9% decline in non-interest income from K5.2 billion to K4.7 billion.

Cost containment remains a priority for the group and the annualized growth in operating expenditure was restricted to 11%. Our cost to income ratio has declined to 53% from the 56% recorded in 2014.

The overall business environment in Malawi remains difficult and we continue to closely monitor our credit portfolio making prudent impairment provisions where deemed necessary. A further MK369 million of impairment provisions were charged against income for the period.

Overall group profit after taxation of MK3,577 million and earnings per share of 154 tambala were marginally higher than the corresponding prior period.

## Outlook

The recent reduction in liquidity reserve requirement will increase the proportion of interest bearing assets on our balance sheet but, as lending rates are expected to be reduced, we do not anticipate a positive impact on our net interest margin.

Further regulatory interventions governing the operations of the foreign exchange market will depress income from foreign exchange trading.

We continue to focus on cost containment against a challenging background of currency weakness and high domestic inflation in Malawi.

Elsewhere in the group, we expect significant improvement in the performance of our subsidiary and associated banks in Mozambique and Zambia respectively.

We remain confident of a year on year improvement in overall group performance.

## Dividend

The directors have declared a first interim dividend of **K1, 168,125,000** or **50 tambala** per share payable on **Friday, 4th September 2015** to shareholders whose names appear in the register at the close of business on **Friday, 28th August 2015**.
