

## DMI -ST. JOHN THE BAPTIST UNIVERSITY STUDENTS VISIT THE STOCK EXCHANGE

On 1<sup>st</sup> November 2022, 40 students from DMI-St John the Baptist University visited the Stock Exchange as part of their programme requirements aimed at gaining practical understanding of the financial and commodity markets in Malawi.

The students were taken through a presentation on the mandate and operations of the Malawi Stock Exchange. The students got to learn more about the history of the Stock Exchange, the platforms that are available for companies to raise capital and how they can buy shares and bonds on the market. This was followed by a question-and-answer session where the students were given an opportunity to interact with MSE staff.

The students through their lecturer and student representative thanked the Exchange for hosting them.
