

MSE ATTENDS THE 34TH MALAWI INTERNATIONAL TRADE FAIR

The MSE joined the MCCCCI Trade Fair from 23 May to 29 May 2024, themed "Boosting Malawi's Export Capacity through Production." It provided an excellent platform to showcase our products and engage with stakeholders, attracting visitors from diverse backgrounds. The MSE shared comprehensive brochures on buying and selling shares and bonds and promoted the Mzinga Incubation Program. We also interacted with students, educating them about the stock exchange and investing. Our participation was successful, showcasing our contributions to Malawi's economy, engaging potential investors and promoting financial literacy. Such initiatives enhance our visibility, offer networking opportunities, educate investors and promote our products and services. Overall, participation in trade fairs is a strategic move to boost the stock market and contribute to economic growth.
